Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 January 2002.
- 2a) ☐ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14, 18 drawn to processes for selection of cells capable of expressing a protein essential for the cell's growth and a selected cell.

Group II, claim(s) 15-17, 19-34, drawn to methods of selecting cells comprising an aminoacyl-tRNA synthetase capable of charging a tRNA capable of recognizing a missense mutation with an unconventional amino acid, selected cells and methods of using such cells to produce a polypeptide comprising an unconventional amino acid.

Group III, claim(s) 35-46, drawn to methods of purifying the protein comprising the unconventional amino acid and the purified protein.

Group IV, 47-49, diagnostic packs and methods of using the purified protein as part of a diagnostic composition.

Group V, 50-51, pharmaceutical or cosmetic compositions comprising the purified protein and methods of using such compositions.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons. The special technical feature of Group I is the process of selecting mutant cells that are capable of compensating for a missense mutation in a protein essential for cell growth. Group II comprises an additional special technical feature not shared by, or required for the claims of Group I. This additional technical feature is the presence and use of an aminoacyl tRNA synthetase capable of transferring an unconventional amino acid to a tRNA that is itself capable of "reading" a missense codon. An additional special technical feature of Group III is the structural/functional characteristics of a protein comprising an unconventional amino acid such that the protein differs in its functional characteristics from the wildtype protein (e.g. ease of purification via the unconventional amino acid). The special

technical feature of Group IV is the use of diagnostic compositions and methods not required for any of the other groups. The special technical feature of Group V that is not shared by, or required for, the members of Groups I-IV is the use of pharmaceutical or cosmetic compositions.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gerald G Leffers Jr. whose telephone number is (703) 308-6232. The examiner can normally be reached on 9:30am-6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Remy Yucel can be reached on (703) 305-1998.
